Plenary Discussion

Big Picture

- What is the future of light fields? Hardware, Algorithms, Applications
- Industry - Academia

Benchmark

- How to deal with incremental submissions, parameter settings, training data,...?
- Proper survey? Modular evaluation? Public source code?

Light Field Community

- Mailing list?
- Joint effort for new datasets? (real vs. synthetic, non-Lambertian surfaces, BRDF estimation,...)
- Common platform for datasets and code?
- Periodic workshops and challenges?
